SPOTLIGHT ON 2022

Regent Street Christmas Lights

For the 7th year, IDWe Ltd have played an integral part in supplying the power to the world-famous Christmas lights and 2022 was no different.

Discover how we did it here:

American Embassy, Nine Elms, London

We returned to the American Embassy again!

With secure access to the embassy, we repaired their main extractor fan unit by replacing two bearings.

All work was executed out of hours, with no disruption to services and the unit was left in good working order.

Welcome from Ian!

A warm welcome to our FIRST quarterly newsletter and a very happy new year to you!

Our newsletters are a chance to share how we've helped the local and wider community with their business needs.

Happy reading...

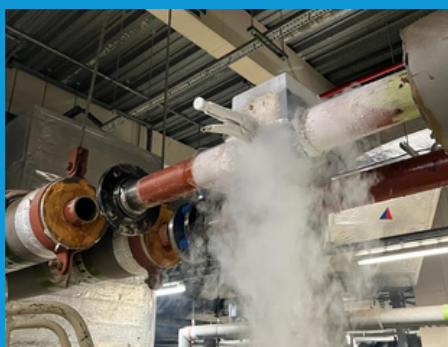

Ian Wilford
Managing Director

4

Pfizer, Kent 25+ Pipe Freezes

A huge project spanning across three days.

We were asked to carry out numerous pipework freezes to various size pipework. Plus, supply & fitting of flanges and valves/plugs.

Our Hot Tapping Services for DPC Mechanical Ltd, London, E3

We returned for a second time. This project we focused on installing four valves onto the LTHW steel pipework and a drain valve onto the copper pipework.
